New studand the Indian territory. He read the Anadarko resolution adopted by the Democratic central committee, at which time the resolution stated that the Democratic party was in favor of immediate statebood with the Indian territory and Oklahema and opposed to statehood for Oklaterritory. The reading of this resolution was a plain indication to the audience that in spite of the fact that the Democrats in Okiahoma did pass resolutions protesting against the admission of Oklahoma as a state, the Democrats in congress paid little attention to the matter, voting for the Flynn bill with the Repub-

licans in the house. Mr. McGuire explained the clauses in every dellar that had come to this territory from a magnanimous congress. Extracts from the speech made by S. There has been considwith two senators and two representatives more could be done for the people of the Irdian territory than can be done at this He explained why in his estimaion. Mr. Cross could not secure imme-

diate statehood for Oklahoma and the dian territory, and his arguments in this respect were such as could not be disputed, when the position of the leading Democrats of the nation, including Joe Hailey, of Texas, was taken into consideration. The letter from Mr. Bailey's sec-retary explaining the attitude of the Texas senator was read to the audience and this letter was another clincher in behalf of immediate statchood for the territory of Oklahoma.

Mr. McGuire discussed all phases of the statchood question to the satisfaction of his audience, showing why, at this time, statehood is the desired thing for Oklahomans, and that as the territory is at the very threshold, it should not be a political matter, but that every man interested in the advancement of Oklahoma should cast a vote this fall which will mean immediate statehood for Oklahema along the lines of the Flynn bill which is now pending in congress.

After the discussion of the Flynn bill

and the disposal of the statehood ques-tion, Mr. McGuire took up the question of mixed schools. He explained the law on the question and then referred to Cross speeches. He gave extracts from speeches made at Blackwell, Cushing and other places which was similar to the speech there, and you can imagine the kind of an three thousand people, and I expect he did, for he talked on the government skin those negroes and hang their hides on the fence to dry until after November 4.
